

Short Bio

Caleb Tam, MS/DDS

General Practice Residency (GPR) Director

Cambridge Health Alliance/Harvard School of Dental Medicine

Dr. Caleb Tam was born and raised in the Bay Area, California. He earned his BS in biology (2009) from University of California, Davis, and his MS in biomedical engineering (2013) and DDS (2018) from University of California, San Francisco (UCSF).

After graduating from dental school, Dr. Tam completed a General Practice Residency through Harvard School of Dental Medicine and Cambridge Health Alliance (2019) and has since remained with the program as an attending faculty and residency director.

His primary academic/research interests include dental biomaterials, dental regenerative therapies, and the “Oral Physician” training model.

Dr. Tam also has a passion for outreach and education; he is currently involved with efforts such as the African Community Health Initiatives (Boston), Healthy Smiles Project (Cambridge Health Alliance), and Biomedical Careers Science Program (Harvard Medical School).
