

UCSF Program in Craniofacial Biology

Craniofacial Seminar Series | 2023 - 2024

September 7, 2023	Steven Vokes <u>UT Austin</u>	12:00 - 1:00 pm HSW 301	Timing is everything: interpreting Hedgehog signaling responses
October 5, 2023	Karen Sears <u>UCLA</u>	12:00 - 1:00 pm HSW 303	Evolution and Development of Bats
November 16, 2023	Maksim Plikus <u>UC Irvine</u>	12:00 - 1:00 pm N-729	Skin Morphogenesis – Pigmented and Oily Twist on Textbook Examples
December 14, 2023	Eric Van Otterloo <u>University of Iowa</u>	12:00 - 1:00 pm HSW 303	Defining the reiterative and spatiotemporal roles of TFAP2 paralogs in craniofacial development
January 11, 2024	Alexa Burger <u>University of Colorado</u>	12:00 - 1:00 pm HSW 303	Conserved distant enhancers regulate Brachyury/T/Tbxt expression in the vertebrate notochord
February 15, 2024	Chris Martin <u>UC Berkeley</u>	12:00 - 1:00 pm HSW 303	Discovering new craniofacial gene functions in a novel system, the Caribbean scale-biting pupfish
March 7, 2024	Aris Economides <u>Regeneron Pharmaceuticals</u>	12:00 - 1:00 pm N-729	A novel regulatory mechanism in BMP/Activin signaling revealed through studies in fibrodysplasia ossificans progressiva
April 18, 2024	Wanida Ono <u>UT Health Houston</u>	12:00 - 1:00 pm S-214	Understanding mechanisms of tooth eruption and tooth root formation: An orthodontist's perspective
May 9, 2024	Noriaki Ono <u>UT Health Houston</u>	12:00 - 1:00 pm N-721	Essential roles of skeletal stem cells in development, diseases and regeneration
June 14, 2024	PCB Retreat	8:00 am - 6:00pm California Academy of Sciences
